Date _____

Unsafe

Safe

Water Depth Warning

During the winter, water depths in Cootes Paradise are less than 60cm (24in) throughout the area.

Locations of water current have **thin ice**. This includes creek mouths and next to the Fishway.

Membership Matters

Membership is one of many ways to support the sanctuaries. Half of the operational funding of the Gardens is raised through memberships, donations and admissions. For less than \$100 annually you can support the Gardens sanctuaries and enjoy member benefits such as free parking, at trailheads and educational enrichment programs.
