School Program

Adventure Challenge Course

October 17 to 21, 2016 and April 24 to 28, 2017

Join us for one of the most unique physical education and teambuilding experiences available! Set on a 5-km outdoor course in RBG’s Arboretum, the Adventure Challenge Course is full of physical obstacles and mental challenges designed to challenge students and build team dynamics within a group.

RBG’s Adventure Challenge Course changes every year with new obstacles to challenge your group. The course offers different highlights for elementary (Grade 6 and up) and high-school students.

The Adventure Challenge Course aims to provide students with the opportunity to explore the outdoors in a unique and fun way. With the emphasis on completion of the physical and mental tasks, not competition between teams, each group is able to have a rewarding experience.

Visit www.rbg.ca/adventure for details, including videos from past challenges.
